MAYOR'S MESSAGE

Submitted by Mayor Kelleen Potter

Happy New Year!!

I hope you enjoyed the holidays and made some happy memories to appreciate in the future. I heard many compliments about our city Christmas tree and how beautiful our Main Street looked this year. Big thanks to our City Staff who worked so hard to make that happen. Our City Manager, Parks Manager and staff and Public Works Manager and staff really went above and beyond to make sure we had a downtown we could be proud of this holiday season. I am truly grateful for our professional, hardworking, and dedicated staff.

One way to get more involved in Heber City is by serving on one of our City boards. We have many committed citizens who spend long hours studying issues and providing input to the City Council. One of our most important boards is the Planning Commission. The Planning Commission makes recommendations to the City Council and in 2019 will be particularly busy and influential as they help update our general plan.

HAPPY★NEW★YEAR

This is particularly important as it will guide the planning process for the foreseeable future and determine many things about the future of Heber City.

We are currently accepting applications for two alternate planning commissioners. The requirement is to be a Heber City resident or own property in Heber City. The regular meetings are the second and fourth Tuesdays at 6:00. If you are interested, you can submit a resume and letter explaining your relevant experience and why you are interested to Meshelle Kijanen at mkijanen@heberut.gov I intend to make these appointments in the next couple of weeks.

500 NORTH ROAD WORK

Submitted by City Engineer Bart Mumford

Heber City's contractor, Geneva Pipe, will soon begin repair work on sections of sewer line in 500 North, between 100 West and 300 West. The work will begin Monday, January 7th, and is anticipated continue for 6 to 8 weeks. Final road repaving will occur next spring when temperatures allow. Due to the significant depth of the pipe, the work must be done during the winter when groundwater levels are low. Road closures along 500 North will be required, however, local traffic will usually have access to their homes. The contractor will work to minimize disruptions during the construction and residents are requested to not park on the streets when work is occurring nearby. For specific information regarding the construction and schedule, please contact Jared Wolfgramm with Geneva Rock at 801-592-4570. The City understands the inconvenience this causes residents and will work to accommodate special needs during the repair work.
