

HEBER CITY NEWS

April 2011

MAYOR'S MESSAGE by Mayor Dave Phillips

Spring has officially arrived, with a snow-storm forecast for this week. We all know what it's like to live here in the Heber Valley! I wash our car and it snows or rains. It happens to all of us. With those thoughts in mind, I'll take a chance and write about an important aspect of our community: cleaning up our yards and homes. It's never too early to start this, and spring seems like a great time to clean up after winter in order to get our community looking better.

In recent budget meetings we've discussed code enforcement and how we rely so much on the good neighbors in Heber City who make it a habit to keep their yards clean and free from trash. This includes hauling away junked cars, trailers and other "stuff" that detracts from the looks of a clean neighborhood. When you do this, not only does your place look nice, but your neighbors applaud you for helping keep the neighborhood looking like it should.

Some people are concerned about property values (rightly so) while others care more about the looks and safety of having nice, clean neighborhoods. Many like to have both! I receive a lot of comments each year concerning this subject. Please mark your calendars for the arrival of good weather and the proverbial spring-cleaning that accompanies it. For those of you who have pickup trucks, how about asking your neighbors without a truck if you can help haul away the clutter? Happy spring (and spring cleaning) to each of us.

POWER RATES IN UTAH ARE GOING UP, TAKE YOURS DOWN!

Don't miss the Utah Renewable Energy Conference 2011 at the Salt Palace Convention Center on Tuesday, April 19th, hosted by the Utah Solar Energy Association and the Utah Technology Council. This is your chance to bring the whole family and learn about energy efficiency and renewable energy. There will be family-oriented activities and information sessions from 5-9pm, and admission is only \$10 for the entire family! Plus, they will be raffling off Goal Zero's Portable Solar Power kits that you can take camping, to the beach, or use in an emergency! To learn more visit www.utsolar.org.

COMMUNITY GARDEN

Heber City Corporation is again offering an area for a Community Garden. The plots are available for anyone interested. However, as we now have more interest than available space, preference will be given to people living within the City limits. Only one lot per family will be available and they will be available on a first come, first served basis. The plots could vary in size depending on total area available and the number of requests received but could run about 10' x 12'. The cost is \$30 for the season with a \$10 refund at the end of the season if the area is left clean and the watering nozzle returned. Anyone interested should contact Paulette Thurber at the City Offices, 654-0757, during normal business hours.

THE
BIG FIX ON TOUR
