

Heber City – 2022 Impact Fee Summary (effective 1-27-22)

Impact Fees

Although the total build-out of Heber City is not anticipated for many decades, proper planning of the City’s public facilities should occur now. The collection of impact fees from new development is one way to offset the cost of adding and/or expanding the existing infrastructure.

Table 1-2 summarizes the impact fees for facilities including Culinary Water, Sanitary Sewer, Streets, Storm Drainage, Pressurized Irrigation and Parks and Trails. The recommended impact fees will fund the necessary improvements to the City’s infrastructure that will maintain City and State standards.

Table 1-2 Summary of previous and current impact fees. (SEC. 15.16.090)

Facility	2022 Impact Fees	Units
Culinary Water:	Residential	ERU*
	Non-Residential	0.75-inch
		1.00-inch
		1.50-inch
		2.00-inch
		3.00-inch
		4.00-inch
Sanitary Sewer:	\$2,038	ERU*
Streets:	Single Family	Dwelling Unit
	Multi Family	Dwelling Unit
	Non-Residential**	Trip Generated
Storm Drainage:	Single Family	Dwelling Unit
	Multi Family	Dwelling Unit
	Non-Residential	Trip Generated
Pressurized Irrigation:	Residential	ERU*
	Non-Residential	Landscaped SF
Parks/Trails:	Residential	Dwelling Unit
	Multi Family	Dwelling Unit
Total Per ERU (Typical Residential)	\$ 11,271	ERU*

* Equivalent Residential Unit ** Subsidized by other funding *** 12/21/21 ENR Index = 12,481.82

In addition to Heber City’s impact fees, the City also collects a \$4170.00 per ERU sewer impact fee for the Heber Valley Special Service District.

Annual Adjustment of Impact Fees

Since population growth, property values, inflation, zoning, and other variables change from year to year and affect the cost of new public facilities, it is in the best interest of Heber City to ensure that the impact fees are adjusted periodically.

The City has adopted a policy that indexes the cost of improvements to inflation and automatically adjusts impact fees. The index used is the Engineering News Record (ENR) 20 City Construction Cost Index. The ENR December 2017 index of 10,870.06 will be deemed the base index. An annual adjustment to fees will be made each January 1st based on the percentage change between the December 2017 index and the December index proceeding the current year.
