

Ryan Stack chose to raise his family in Heber for the same reasons as many of you: blue skies, clean air, friendly neighbors, and majestic mountains. There are many reasons to live in Heber City, and the secret is out as Heber continues to grow at an unprecedented rate. This growth presents us with new challenges and opportunities. **Now Heber City is at a crossroads that demands responsible, forward-thinking leadership.** Ryan has served on Heber's planning commission since March of 2015. It is time to reexamine Heber's general plan and emphasize Main Street redevelopment. Ryan is committed to working with UDOT on the Heber bypass route, and he supports preserving open space and addressing the City's aging infrastructure. While on the Planning Commission, Ryan has worked hard to ensure that affected community members have a voice and he weighs their concerns when considering each proposal. It's time for City leadership to be proactive, not reactive. **Let's vote for the candidate who is dedicated to retaining Heber's small town charm while shepherding it into a new era of responsible growth with sensible zoning.** Learn more about Ryan at [stackforcouncil.com](http://stackforcouncil.com), and vote for Ryan Stack for Heber City Council.
